Horse: Colt 45, 14-year-old Quarter Horse gelding

Owner: Jesse Rader

I, Dr. Bailee Bang, certify 45 as an overall healthy 14-year-old Quarter Horse gelding. On physical examination, no abnormalities were detected. His heart auscultated free of murmurs and arrhythmias and lungs were clear with no crackles or wheezes. On lameness examination, no signs of lameness were present. He tested negative to hoof testers on all four and negative to all flexion tests performed. On radiographic examination of all four limbs, no signs of current abnormalities indicating any present issues were found.

A handwritten signature in black ink, reading "Dr. Bailee Bang". The signature is fluid and cursive, with the "Dr." and "Bang" parts being more prominent than the middle name "Bailee".
